

# The Williamsport Home

May 29, 2020

Dear Residents, Families, and Caregivers,

In our efforts to keep you informed, we wanted to send a status update as to where things stand in our community relative to COVID -19. Although we realize that this letter does not replace a personal call, you are welcome to reach out to us with any specific questions.

At present, we continue to have 0 resident cases, 0 staff cases of COVID-19 and 0 deaths in our community.

May 28, 2020, Personal Care Homes began reporting data elements related to COVID-19 to the Department of Human Services.

As many of you may have heard on the news, the White House Task Force and the PA Secretary of Health have released recommendations for testing all staff and residents in Senior Living Communities in an effort to relax restrictions and reopen our communities for visitation. We are awaiting further guidance and availability of testing supplies from the Department of Health. We will update you as this evolves.

We know that you are anxious to see your loved one and resume to normal visitation. We recognize this has been a stressful time for you and your family and we are working diligently to allow modified outside visitations in the immediate future. We continue to update our website and social media pages with pertinent updates and resident activities. Please follow these pages for the most up to date information.

In Good Health,

Yvonne Laubach  
Personal Care Administrator
